Services to keep you running

Engineering and Application Development

Our experienced team provides technical and application support, product design and application development.

- Motion Control
- Process Controls
- System Specification Development
- Motor Sizing
- Product Cost and Performance Analysis
- Proof of Concept Prototypes
- Engineering Documentation
- Programming and Start-Up Assistance
- Post Sale Support and Training

Electro-Mechanical Sub-Assembly

We manufacture electro-mechanical assemblies to assist our customers in reducing total manufacturing costs.

- Motor and Gearbox

- Wiring Harnesses
- Pneumatic Assemblies
- Special Actuators
- DIN Rail Assemblies

Custom Lubrication

We have a state-of-the-art cleanroom for custom lubrication of bearings, linear motion products, and gearboxes.

- Certified Class-10,000 Environment
- Class-100 Laminar Flow Workstation
- Automated Cleaning/Degreasing System
- Manual and Automatic Lubrication Dispensers
- Extensive Selection of Lubricants
- Package Sealing Equipment

Vendor Managed Inventory

We create customized programs to manage your inventory as a fully outsourced service.

- Stockroom Management
- Breadman Replenishment
- Vendor Consolidation
- Dedicated Branch Inventory
- JIT Delivery
- Kanban Release

Integrated Control Systems

We engineer and manufacture a wide variety of integrated control systems.

- Design of motion and process control systems
- Build, Program, Test, Start-Up, and Field Services
- Extensive system documentation
- UL 508A listed panels available
- Upgrade existing machines (including electrical and mechanical components)

Our customers say it best...

“The biggest differentiating factor is BSC’s service level. Our R&D engineers have a direct line to BSC and they often seem to know what we need before we do—especially in the R&D phase.”

“BSC’s service responsiveness stands out as a top strength for them, especially compared to other vendors in their industry.”

“BSC’s VMI (vendor managed inventory) offering is critical to our business because it prevents downtime on our production floor.”

“BSC’s product expertise is excellent. It adds great value to our company because if one of our parts becomes obsolete, BSC has the knowledge to recommend an effective replacement.”

“BSC is able to do complex kitting for us; they understand us as a customer, what’s critical to our success and they do a good job managing everything. It’s a very steady and solid relationship.”

“Our company has been working with BSC for over 30 years, and I value that longstanding relationship.”
